SUMMARY

Motivated **Computer Science and Data Science** student with an **analytical mindset and a strong interest in software development and AI**. Possess logical thinking, problem-solving abilities, and a creative approach to understanding and addressing real-world challenges. **Eager to learn emerging technologies**, develop new skills, and continuously grow as a software professional.

TECHNICAL SKILLS

Languages	:	C++, Java, Python, C, SQL
WebTechnologies	:	HTML, CSS, JavaScript, React, fastAPI, uvicorn
Proficiencies	:	Competitive Programming (C++), Data Structures & Algorithms, OOP (C++/Java)
Databases	:	MongoDB, PostgreSQL
Dev Tools	:	Git, Docker, VS Code

EXPERIENCE

Full Stack Development Intern — Apr 2026– june 2026
Technical Hub Pvt. Ltd. — *Remote – Surampalem, Andrapradesh, India*

- Gained practical experience in full-stack development by working on **web application development** and real-world problem-solving.
- Worked with **REST APIs** to retrieve and display data from databases
- Developed **LIFE-LINK**, an **AI-powered healthcare assistance platform** featuring AI-based symptom triage, emergency assistance, nearby hospital discovery, and blood donor connectivity.

EDUCATION

Bachelor of Technology, Computer Science Engineering- Data Science — 2024 – present
Aditya University, Surampalem — *CGPA : 8.67*

Intermediate (MPC) — 2022 – 2024
GBR Jr College, Anaparthi — *Marks : 974*

PROJECTS

LIFE-LINK | *React, Python, FastAPI, MongoDB, Gemini AI* — Live Demo | GitHub

- An AI-powered healthcare assistance platform providing medical guidance and emergency support.
- Implemented AI-based symptom triage to assess symptom urgency and guide users through specialists
- Integrated emergency contact management, location sharing, nearby hospital discovery, and blood donor connectivity.
- Designed voice-based and multilingual assistance to improve healthcare accessibility.

Blood Bank Management System | *Java, Swing, JDBC, MySQL* — GitHub | Video Demo

- Developed a desktop application to manage blood donor information and blood bank records efficiently.
- Built a graphical user interface using Java Swing for user interaction and record management.
- Integrated JDBC with MySQL to store, retrieve, and manage application records.

ACHIEVEMENTS

- **LeetCode:** Practicing data structures and algorithms to strengthen problem-solving skills. (Profile)
- **CodeChef:** Achieved a rating of **1366** and solved **321 problems**, with participation in 41 contests. (Profile)
- **GitHub:** Maintained repositories featuring projects in Java, C++, and application development. (Profile)
- **GeeksforGeeks:** Practicing coding problems and strengthening data structures and algorithms skills. (Profile)
